

Dr. Saeeda Mohammed

I graduated with M.B.,B.S. (2006) and the DM in Internal Medicine (2014) from the University of the West Indies. Currently, I am working as a Consultant in Internal Medicine at the Port-of-Spain General Hospital and I am also an Associate Clinical Instructor with UWI for the past 9 years. I have been practicing medicine for more than seventeen (17) years and would like to give back to the profession. I wish to contribute to maintaining the standard of medical practice in Trinidad and Tobago.

The purpose of the Council is to ensure patients have **competent and compassionate doctors**. I am an advocate for career-long learning and believe that Continuing Medical Education (CME) credits should be compulsory to foster continuous improvement.

I support the move for the Council to create a comprehensive, interactive, online website-allowing doctors to pay online, submit documents etc. without the need to present themselves to the office. This website will also allow the public to have knowledge of their doctors via a medical register. In this regard, I am motivated to be part of the process of modernization of the Medical Council to bring it up-to-date with that of international standards.
